A (strong) & (public) counter, that

execs:

We are doing Forensic Data Subpoenas to prove these attacks are false, malicious attacks, like last months' Ladies For Kavanaugh founder's was.

Forensic data trails are 2 edged weapons

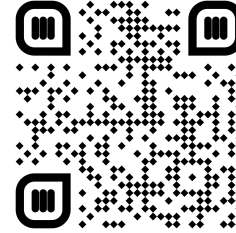

Instagram deleted data retention over 7 years: (meta lies about timeframes & buries for own retention)

OnStar 6 months, others?

If someone sent (awful) IG messages topics, replies would occur.

Still existing & deleted messages can be subpoenaed.

Debunked:

Platner's accuser, Lyndsey Fifield, co-founded Ladies For Kavanaugh and calls story "a gift" Wajahat Ali list all of the interests working together to block Graham Platner

Now:

Jenny Racicot, 41, 2021, two years after she and Platner began casually dating.

Need to go through www.Achive.org & www.Archive.is, etc

looking for what R's have scrubbed out of her Social media History.

There are user examples of 10+ years for different companies.

how long telecoms retain data for.

AT&T holds onto data such as call records, cell site, and tower dumps for 7 years.

T-Mobile holds similar information for 2 years, and Verizon holds it for 1 year.

Cell Forensics Work

When subpoenaing phone records, specifically ask for "Call Detail Records, with Location." These records can be used to show if someone was using their phone while driving.

(One option of many)

To analyze the record, drop them into a www.Cell.Ninja (yes, Cell dot Ninja), enter the date and time of the crash, and it will dump a nice report showing all the records and if there was cellphone activity at the time of the crash.
